

Tell Us How You Would #BuildABetterBayArea

Plan BayArea 2040

Now that you have had a chance to learn about some of the challenges and opportunities facing the region as we plan for the future, we'd like to hear your ideas for how we can work together to build a better Bay Area. We are using an online tool to help collect your input about questions like:

How do you want to travel around the Bay Area over the next 25 years?

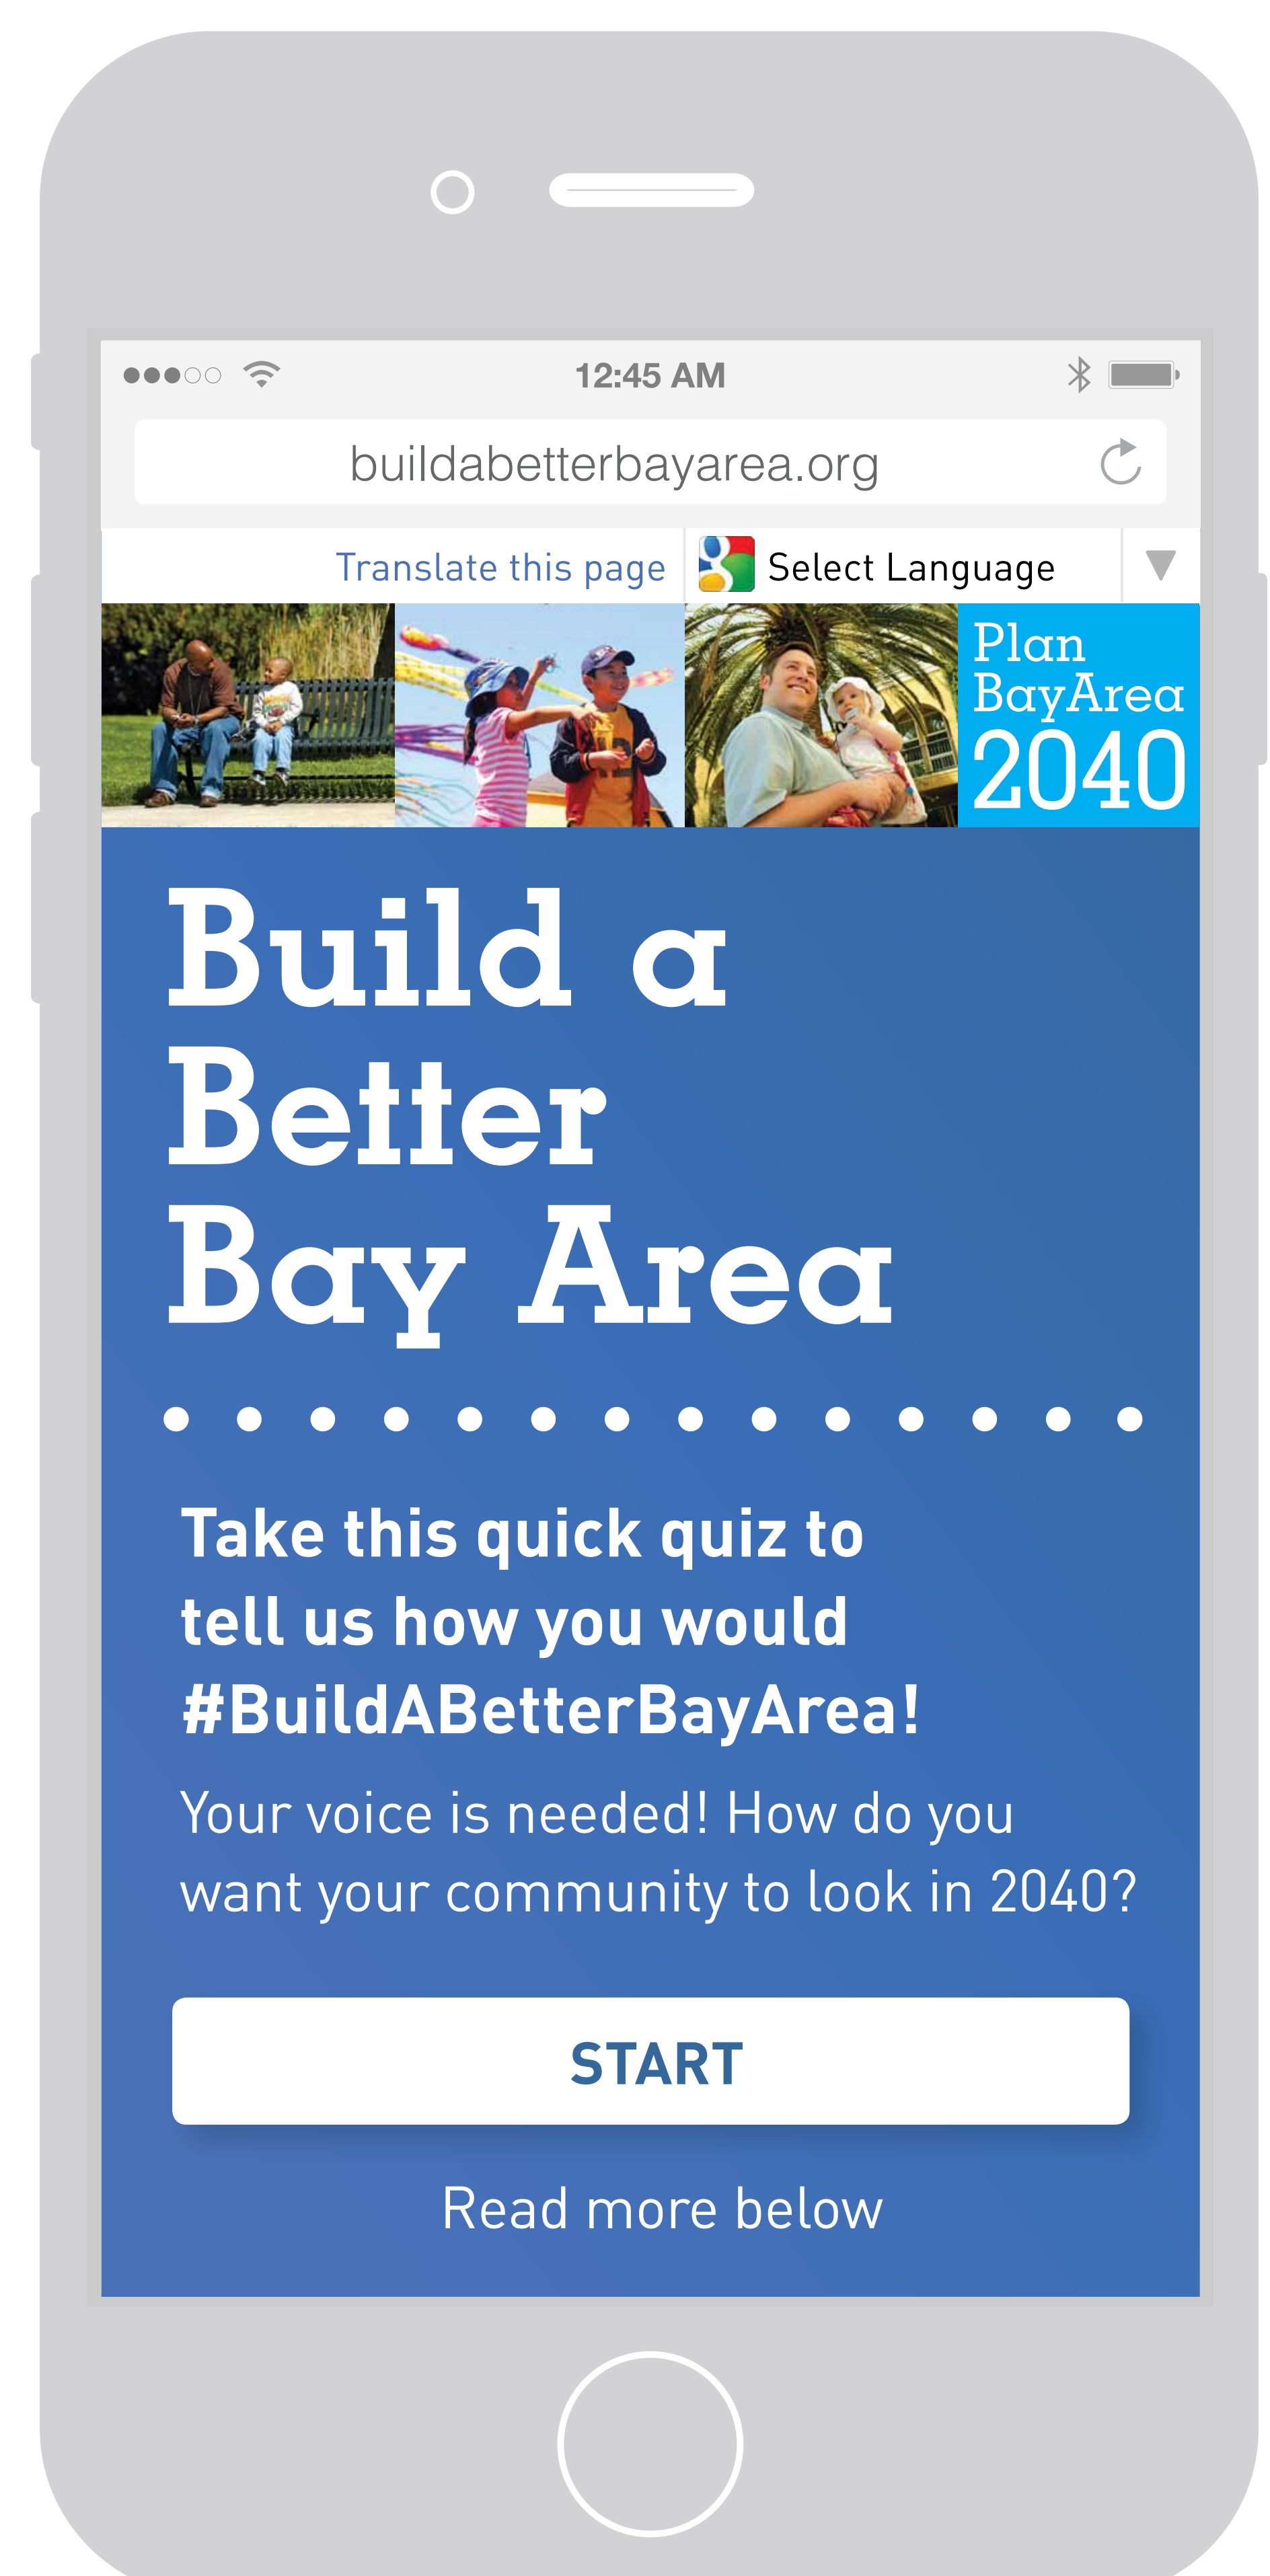

What transportation investments and housing policies should we prioritize now to build a better Bay Area for future generations?

Should we continue to focus job centers and dense housing in the region's biggest cities, spread out and create new developments, or find some middle ground as the region grows?

The **#BuildABetterBayArea** survey will help Bay Area cities and counties plan for transportation needs and preserve the character of our diverse communities while adapting to the challenges of future population growth.

Once you've completed the fun and interactive survey, you can review and submit your responses, as well as share this opportunity to provide feedback with your friends.

Ask one of our staffers to help you get started giving feedback!
