

## Correspondence on Draft Plan Bay Area 2050 Amendment

**Name:** Neena Hanchett

**Date Received:** 9/9/24

**Comment:**

Extending & expanding the existing SMART system to Healdsburg and then to Cloverdale would give our residents, businesses, and visitors access to viable thru-county transportation options, thereby expanding their access to educational and medical facilities, as well as access to jobs and hiring employers throughout Sonoma County. The current situation is untenable with very few practical options existing to move people from Cloverdale to other areas of the county without the use of cars streaming up and down Hwy. 101.
